# ONE POWERFUL DREAM

## Four Life-Changing Days

Nearly all of us will face the stress of coping with a serious illness in our lifetime - whether it is our own illness or that of a loved one. We don't know that a crisis will strike, but if and when it does, wouldn't it be a relief to know that there is a source of comfort and support?

### THE DAWN OF A DREAM

When a young family member was diagnosed with a brain tumor, respected business leader Pat Moran experienced first-hand how the trauma of an illness affects the whole family. Moved by her own family's pain, she was determined to make a difference. She envisioned a place where the entire family could get away, regain strength, mend spirits and just be families and kids again.

### THE DREAM BECOMES REALITY

When Pat began to share her dream with business leaders in the corporate and healthcare communities, her associates immediately saw the great need that could be met by her proposed family retreats. They urged her to pursue that dream and as a result, **Deliver the Dream** was born.

**Deliver the Dream**, a respite and retreat program was created to serve families facing a serious illness or crisis by helping them enhance coping skills, reduce stress and cultivate relationships with others facing similar challenges. Since late 2002, through the generous involvement of companies like Citrix, JM Family Enterprises, Northern Trust, Southeast Toyota Distributors, Wachovia and others, **Deliver the Dream** has made a tremendous difference in the lives of more than 2,660 family members facing such serious challenges as cancer, autism, brain tumors, Multiple Sclerosis, Down Syndrome and HIV/AIDS.

### DREAMERS NEEDED

Our corporate partners have realized the power of Pat's dream, and so can you. Won't you become part of the dream to make a difference? You'll gain so much by giving back.

### Get Involved. Make a Difference.

Contact us today at 1-888-OUR DREAM (687-3732) to find out more about how you and your company can help "deliver the dream."
